(352) 514-1777 (Mark's cell)

This information is designed to inform you of the current situation and recommendations issued through the Centers for Disease Control and Prevention (CDC) for appropriate safety measures, related to travel to Haiti.

Immunizations Needed:

Immunization	Cost estimates as of 10/12/10
Hep A	\$52.75 each series (Series of 2)
Typhoid	\$60 oral; \$82.28 injection
Hep B (for those working with blood)	\$61.81 each series (Series of 3)
Tetanus	\$49.36

Please check with your local county for information concerning the availability of a foreign travel consultation. The above cost estimates were provided by the Alachua County Health Travel Department. Please anticipate a charge for this service. Alachua County charges a rate of \$40 per person or \$80 for parent(s) with their own children under 18 years of age.

We strongly recommend that you visit the Centers for Disease Control and Prevention website at <http://wwwnc.cdc.gov/travel/destinations/Haiti.aspx> for very detailed information and recommendations on important decisions you need to make concerning your travel safety.

This website has information and recommendations not only concerning immunizations but also for cautions against infection with malaria.

Consent form:

I have reviewed the information above, and have been advised to review the information included on the CDC website. Further it has been recommended that I confer with my health care professional concerning precautions I should take prior to traveling to Haiti. Upon conferring with the above resources I am covered with the following immunizations and anti-malaria precautions: _____
